

maintaining the integrity of **fresh**

**Ideal for: Transporters needing a light-weight, rigid bulkhead or a Lifting Bulkhead System**

- 3" thick laminated closed cell core for reduced weight and high insulating value
- Perimeter sealed to core to prevent moisture and food product penetration
- UHMW scuff plate protects bottom with 5 Year Warranty against wear
- Helps meet requirements of Food Safety Modernization Act (FMSA)
- Available in multiple configurations to fit any application
- No hardware at bottom - will absorb impact without damage
- 10 Year Warranty against vinyl delamination of the core

maintaining the integrity of fresh

Skinny Bun Lite XP has an extruded polystyrene rigid foam core that is made with a patented Hydrovac process technology which makes it highly resistant to moisture and permits the product to retain its R-value year after year even after exposure to moisture and freeze/thaw cycling.

### Available Options

#### Fan Kit

As an alternative to a rear evaporator, the Two-Temp Fan Kit allows temperature control in the second compartment. Specifications include: 10" diameter; 10 prong blade; 12 volt, 6000 hour brush life motor; displacement of 788 CFM; temperature range from -40°F to +80°F, and an On/Off switch

#### Vent Kit

10" Diameter Vent with Adjustable Velcro Flap provides controlled air flow to rear compartment or return air flow when installed with a Fan Kit

#### Two-Way Hinge

Webbing reinforced on top and bottom, the Two-Way Hinge allows entry from both compartments and prevents damage.

#### Tether Connect

Configure bulkhead(s) to be securely stored away in trailer by using part #TCA with roller tracks. Never lose a bulkhead again!

#### Cold Draw Ventilation System

As an alternative to a rear evaporator, the Cold Draw is mounted in the upper corner of the trailer. Air is drawn into the center of the compartment by a 12 volt motor and distributed across the ceiling to maintain a constant temperature.

#### Abrasion Plate

Available 2' and 4' high, 100 mil HDPE offers protection from forklift and pallet damage. Installed with flush mounted hardware.

#### Portable Bulkhead Rack

#### Custom Labeling Up to 3" High

Identify your bulkhead with your company name and trailer number.

#### E or F Straps

Installed with flush mounted hardware.
